TO CELEBRATE PUBLIC SCHOOLS WEEK IN APRIL

Purposes For Observance Lauded By Leading Citizens Of Entire State

Public Schools Week this year will be observed during the week beginning Monday, April 25, according to a proclamation issued this week by James T. Fraser, grand master of Masons of California, and addressed to 130,000 members of the order in the state.

The celebration this year marks the nineteenth annual observance of the event, which was originally established to call public attention to and aid in correcting a critical condition in the public schools due to a shortage of teaching personnel because of war conditions.

"It is in our public schools," said Fraser, in his statement, "that the citizens of tomorrow are being trained today. Especially significant just at this time is the statement made by De Witt Clinton in 1826 in his message to the Legislature of the state of New York: 'I consider the system of our common schools as the palladium of our freedom; for no reasonable apprehension can be entertained of its subversion as long as the great body of the people are enlightened by education.

"It is to our public schools," Fraser continued, "and to the citizenship there being inculcated in the youth of the land that we must look for the perpetuity of our democracy and the preservation of its safety, peace and prosperity."

The observance each year is conducted in cooperation with the Parent Teacher Associations, the American Legion, Chambers of Commerce and other service and civic groups.

Last year it was estimated nearly a million citizens visited services held in the auditorium of public schools during the week.

BIRTHDAY BALL RECEIPTS SHOW LARGE PROFITS

Over Three Thousand Residents From All Sections Of County Enjoy Festivities

To the war chest for fighting infantile paralysis will be added nearly $1000 from San Mateo County as the result of the gala President's Birthday Ball, Saturday night, at Tanforan club house, General Chairman Joseph V. Gaffey estimated today.

A large representation from Daly City was among the more than 3000 persons attending the celebration, one of the most successful financially and socially ever held on the Peninsula.

United in a great humanitarian cause, city and county officials, civic leaders, the "man on the street" and their wives gathered to enjoy happy hours of dancing and elaborate entertainment at the big community party.

The ball was dedicated to the new national foundation for combating infantile paralysis by Bradford B. Melvin, prominent San Mateo attorney. Joe Cuneo was master of ceremonies.

Chairman and Mrs. Joseph V. Gaffey and Dr. and Mrs. E. W. Cleary of Burlingame led the grand march which climaxed when the dancers faced a large portrait of President Roosevelt and sang "Happy Birthday to You."

Stars of popular night clubs and other entertainers were featured in the floor show.

As the committee prepared to meet within the next few days for a financial report, high praise was given Chairman Gaffey and Treasurer Bloom of Burlingame for their part in the celebration. This is the fifth year that Bloom has had charge of financial arrangements, spending many weeks in accounting details, both before and after the affair.

Chairman Gaffey expressed his appreciation of the support and cooperation of residents and organizations of Daly City and throughout the county in making the celebration an outstanding success.

JUDGE COTTON SUSTAINED BY SUPREME COURT

Important Decision Involving Insurance Liability Upheld By High Tribunal

The Supreme Court of California, on Monday of this week, rendered a decision of far-reaching importance to all motorists of the state.

The court upheld a ruling by Superior Judge Aylett R. Cotton involving coverage included in the standard automobile public liability insurance policy.

Public liability policies contain a clause to the effect that "none of the insured automobiles will be used to carry passengers for a consideration, actual or implied," and a space to state for what the machine is to be used, such as "business and pleasure."

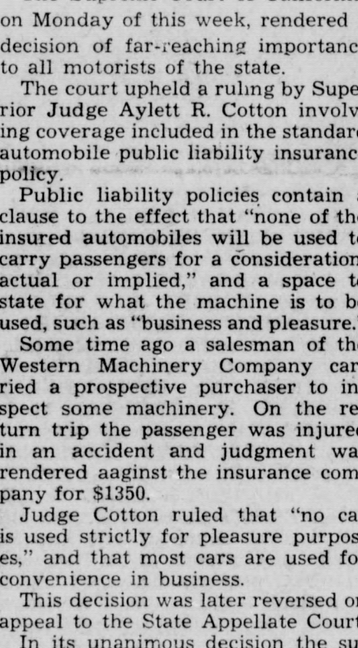
Some time ago a salesman of the Western Machinery Company carried a prospective purchaser to inspect some machinery. On the return trip the passenger was injured in an accident and judgment was rendered aaginst the insurance company for $1350.

Judge Cotton ruled that "no car is used strictly for pleasure purposes," and that most cars are used for convenience in business.

This decision was later reversed on appeal to the State Appellate Court.

In its unanimous decision the supreme Court holds that the automobile in question was being operated in proper business use and that the passenger was not being carried for a consideration, actual or implied.

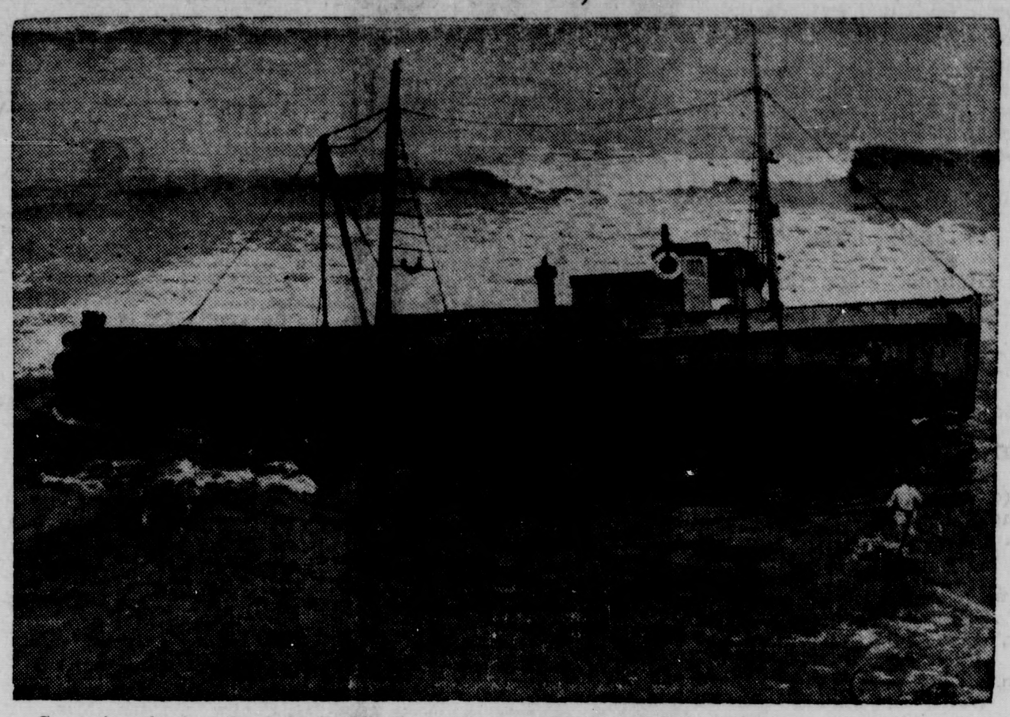
U. S. Webb Retires, "Not To Quit Work"



U. S. Webb

After 34 years in office, U. S. Webb, attorney general of California, announced recently his retirement from public life, deciding he "would like to be on the outside of public office for a while, where he can do a little 'rumpus raising' without the restrictions of official position." Webb, in his 34 year record, is the oldest state's official in point of public service. He is 74.

STORMS LASH PACIFIC COAST; SHIPPING IS PERILED



Sweeping the length of the Pacific Coast, storms recently raged, beaching several small craft and periling coastal shipping. High winds and lashing seas drove the disabled fishing trawler, Antone, ashore at Point Reyes after the nets had fouled the propeller. Coast guardsmen put to sea in a 50 foot rescue boat only to be beached with the luckless Antone. All hands were saved. Photo shows a guardsman wading out to the foundered ship with a line, with which she was made fast to the shore.

LOCAL SCHOOLS RECEIVE GIFT OF HISTORY BOOKS

"Stories of San Mateo County" by Eleanor Freeman, director of curriculum, is off the press. This attractive book of "Children's stories of the long ago" is dedicated to the boys and girls so that they "may grow in understanding and appreciation of the romantic history of this country, and may these stories arouse within them a deep desire to learn more and more about San Mateo County and to pass on to those who come after them the tales of the colorful days that are gone but not forgotten."

The author, a distinguished educator not only in our county but recognized throughout the state of California, has made a definite contribution to child life. The significanct stories are written within the limited vocabulary of children. A map of historical sites and the introduction of "Our County Today" intrigues the reader to enjoy the stories of Indian life on the peninsula, the adventures of Don Gaspar de Portola and Don Juan Bautista de Anza, the Mission Fathers, and the colorful life of the ranches.

Miss Freeman understands the educational need of boys and girls. She has told the stories of early days in all parts of San Mateo County and has provided study guides and interesting activities at the end of each story.

The attractive book, bound in crimson and lettered in gold, has 19 full pages of illustrations of charming spots in San Mateo County. Copies are not for sale. They will be placed in local school libraries so that the children for whom the book was written will have the benefit of the author's research.

Given Jail Sentences For Recent Robbery

At Redwood City, Monday of this week, three youths convicted of assaulting and robbing a San Francisco bartender near Daly City, several weeks ago, were ordered to county jail by Superior Judge McNutt as condition of probation.

Thomas Hogan and Richard Parada were given three years' probation and nine months in jail; Robert J. Malaspina, three years probation and six months in jail.

Hogan was still on probation from a former kidnap-robbery conviction, when he became involved in the present trouble.

Asks Divorce–Says Hubby Bans Prayer

Because, she claims, her husband, Eddie P. Riggs, struck her with a baseball bat when she refused to stop praying at his command, Myrtle Riggs sued for divorce in Los Angeles.

She also alleged her husband threatened to have her committed to an insane asylum unless she stopped praying.

ASK DRIVERS HEED ADVICE

We wonder how many people noticed and gave thoughtful consideration to the advice of the State Department of Motor Vehicles that was printed on the envelope containing their 1938 license plates: "Be Courteous—Careful—Cautious, to avoid Crashes."

To this we might add other warnings in phrases that are easily remembered: "To Take a Chance May Take a Life;" "Take Better Care of Your Car and It Will Take Better Care of You;" "Drive Carefully—Walk Safely;" "Accidents Do Not Happen—They Are Caused." Memorize all of these, quote them often, and put them into action.—San Mateo County Traffic Safety Commission.

GIRL SCOUTS HOLD ANOTHER DOUGHNUT SALE

Plan Hike To Thornton Beach —Pictures To Be Taken And Displayed

Cheered by the success of their previous Doughnut Sale, held in September of last year, the Girl Scouts of Troop 2 are preparing to hold a similar sale on Saturday, February 12, and the girls are busy taking orders which they will deliver to their customers homes on that date.

Anyone desiring to help the Scouts make a success of their Doughnut Sale may give their doughnut orders to any of the girls from Troop 2, or may call Randolph 7978. Orders will be filled for either sugared or plain doughnuts.

Weather permitting, the Girl Scouts are going on a hike to Thorton Beach tomorrow (Saturday). They will meet at nine in the morning and start for home at three in the afternoon. Moving pictures will be taken of their activities through the day, with closeups to be taken of sea life or objects of interest found on the beach. The film will be shown to the public at large at the coming Scout "Festival of Youth" in April.

San Carlos Voters To Decide On Park Sites

The San Carlo city council, at an adjourned meeting on Tuesday evening of this week, adopted a resolution asking for a bond election on March 16.

This issue will amount to $31,400, and if passed on favorably by the voters will be used for the acquisition of city park sites.

HELP TO BUILD NEW CITY HALL

We lost out on federal funds to build a new city hall. We all agree that we need a new municipal building badly, for we have long outgrown the old one.

Let's get together and start the building program. Most of us have expressed verbally our ideas on ways and means to raise money for this much needed project.

Write down your thoughts, Mr. and Mrs. Citizen, mail or bring them to the office of the Daly City Record for publication. Your suggestions on the subject may render service to your community. Letters must be constructive and contain no taint of personalities or politics.

MAY NOT BE "LADY"

About to be sentenced for attempted burglary in New York, this week, appeared before Judge Braucato one Alfred Fraley, known to alienists as a consistent faker of insanity.

When asked if he had anything to say, Fraley remarked: "Examination will show I'm a lady."

The judge said: "Five to 10 years in Sing Sing."

DALY CITY BAND BOYS TO GIVE FREE CONCERT

"Happy To Accept Your Invitation" Is Answer Vouchsafed By Large Number Of Citizens

The Daly City Band invites you all to its second popular concert, which will be staged in the Jefferson Union High School auditorium at 8 o'clock on the evening of February 8.

The boys attend practice faithfully each week, with the perfection of this program as their immediate goal. You are to be their guests Tuesday evening of next week; that is if you will come, for the entertainment is free.

Our city should be proud of this large uniformed unit of excellent musicians, who are always so willing to give of their talent. George E. Brenner, conductor, has proven himself not only an outstanding leader, but also a composer of merit as evidenced by a march that is named for our city's slogan, "Gateway to the Peninsula." This composition was featured last Sunday afternoon at the municipal band concert in Golden Gate Park, San Francisco.

Programs for this concert were delivered with the water bills and every water consumer should have received one. We think nohting of traveling by street car or auto away down town to attend entertainments, so we should not consider the Jefferson High School auditorium too remote for our convenience. Our civic center auditorium is too small for such a large gathering and so until some future day when a more commodious hall replaces the present structure we must be content with the accomodation we now have.

"What blesses one, blesses all."

Three attractive girls of Oakland—Bertha La Fournaisa, 19; Marion Hanson (alias June Clark), 22, and Carolyn Lee Sansome, 24, were arrested in an Oakland apartment house, Friday evening of last week about 5 p. m., on a bad check charge and brought to Daly City by Chief of Police James G. Reardon and Sergeant W. Sunderland, with Mrs. Reardon acting as police matron.

The girls were each released on $100 cash bail, after being arraigned in Judge Clay's court.

He gave no indication of the date when he proposes to call in the grand jury for instructions. The jury was impaneled by Judge Maxwell McNutt during Judge Cotton's absence due to illness.

LEGION CHAPLAIN PRESENTED AUTO

Spiritual ministrations to California Legionnaires will henceforth be chalked up in double quick time by the department chaplain of the American Legion, Rev. Henry L. Walsh, S. J., if his new Christmas present lives up to expectations.

The present is a fine set of four wheels, on which is balanced a motor, a windshield wiper, a paint job, etc.—in short, as neat a streamlined automobile as you will find in the chaplain's collegiate atmosphere at Santa Clara University or in his state wide Legion parish, which consists of over 700 Posts.

Especially valuable to Chaplain Walsh, who has heretofore had to cover his parish by bus, train and streetcars, the automobile came as a present from San Francisco's silver lining outfit, Sunnyside Post No. 366, American Legion, in recognition of the popular "Sky Pilot's" fine work during the past year.

Father Walsh has named his new pal of the open road "Sunnysides," a real friend in need.

Many of the young folks were accompanied by their mothers and Margaret Pettigrew, instructor, was delighted to see the interest that the parents took on this particular occasion.

Clean, healthy sport is good for any growing child and by the manner these youngsters turn out at their meetings there is no doubt that in the near future this organization will boast a membership of close to 100 members.

AMERICAN LOOP DALY CITY TEAM WINS TOP PLACE

Home Town Pitcher Sets Opponents Down Without Either A Hit Or Run

George Riaghianti, clever young hurler of the Daly City club in the Recreation Class A League, pitched the best game ever turned in by any hurler in that league, when he set the Municipal Railway boys down, in their contest last Sunday, without a hit or a run.

This victory gave the Daly City team the championship of the American division of the class A Recreation League and puts them in line for a championship series with the San Francisco Boys Club Rams, title winners of the national division.

Ragghianti was in rare form and only one man got as far as second base during the course of the game. This man got to second on an error by Tom Long in the fifth inning. Ragghianti has had a great year, losing but two decisions in 17 league starts.

Daly City scored one run in the second inning and put on the finishing touches in the sixth when three were scored. Paul Ragghianti, brother of the pitcher; Heinie Schubeck and the pitcher himself collected two hits apiece to lead the hitting attack.

Schuback and Harry Krohn accounted for all of Daly City's four scores, each driving two runners across the plate with solid belts.

Jefferson High Basketballers Lose

Playing their best game of the season thus far, the Jefferson unlimiteds were defeated by the Palo Alto Varsity by a score of 28-19. Captain Charles Murray's fine defensive and floor play made him the outstanding player in the game. Murray led the Jefferson scores with a total of 7 points, while Tony Compagno and Glen Smith each rang up five. The Indian five showed considerable improvement in their game with the Norsemen, although ball passing proved to be one of their principal weaknesses.

Their offensive smothered, the Jefferson 130's lost the opener to the Palo Alto lightweights by a score of 30-11. During the first half of the game both teams took many shots at the baskets. At the half-time the score was only 11-7 in favor of Paly, but as the last half got under way the red and green squad jumped into a decisive lead. Bob Savelly led the lightweights with a score of 4. Carter Callan played fine defensive basketball throughout the game.

130's—Savelly (f) 4, Callan (f) 2, G. Doyle (c) 1, Millet gr.) 2, Barghini (gr.) 2; total 11.

Varsity—Flansburg (f) 2, Compagno (f) 5, Glen Smith (c) 5, Harvey Smith (gr.) 0, C. Murray (gr.) 7; total 19.

This Friday night at 7:30 the Jefferson Indians tangle with the San Jose Bulldogs, at San Jose. The Indians will be up against some real competition when they meet the San Jose quintet, who are the likely champs of the Peninsula Athletic League.

PEOPLE say modern lighting that is "easy on the eyes" makes the eyes feel better . . . And they are right . . . Good lighting brings out the beauty of the home furnishings . . . It aids personal beauty, too.

Light that is glaring brightness or that is dim and gloomy makes hard work of seeing. It causes squints and frowns and scowls and brings on many premature wrinkles and face-lines.

Good, modern lighting merely means the right kind of light, and the right amount of light where you read or sew or use your eyes. And you can have it easily, quickly, inexpensively. THE GOLD RUSH GOES ON

The wild cry of "Gold!" first surged up into California's skies ninety years ago almost to the day.

For it was on January 24, 1848, that John Marshall's eyes popped wide with excitement on discovering sparkling yellow grains in the tailrace of the water powered sawmill he had just built for Captain John A. Sutter.

The great avalanche of prospectors, home seekers, adventurers and shopkeepers which soon swept Westward is imperishably engraved in history's stirring chronicles and needs no re-telling.

California was a great producer in those days of the hardy Argonauts, and so she remains today.

According to the just published report of the United States Bureau of Mines, miners and free-lancing prospectors took out more than 40 million dollars worth of gold last year in California! In quantity, this was the largest amount since 1883, and in value, the richest sum since 1861. As in '49 and during the fifties, California is still the nation's leading gold producer. But she is no less a leading producer of orchard gold.

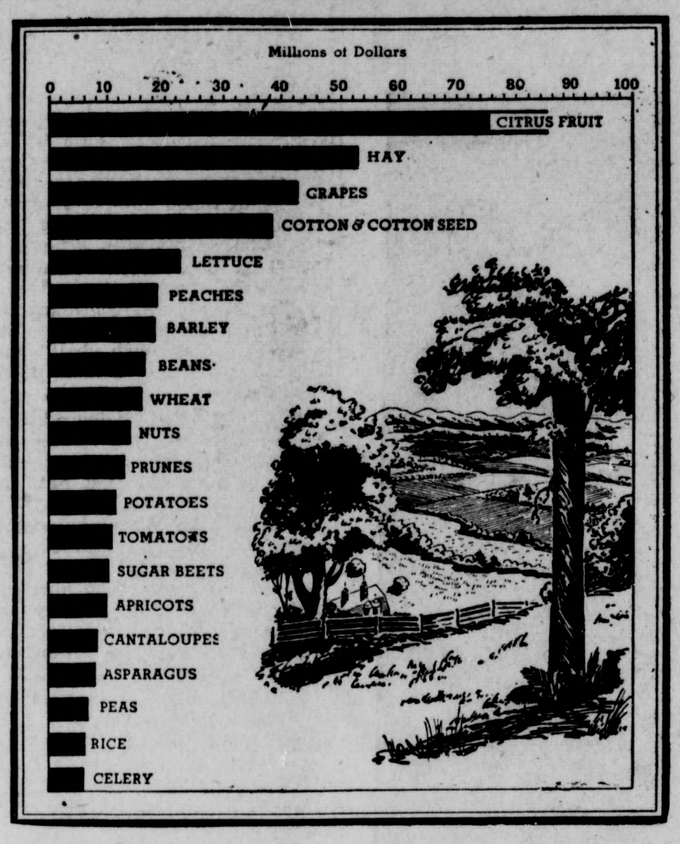
In that latter field, California's production ran to new highs in 1937 with the biggest combined fruit and vegetable pack in its history. The grand total amounted to more than 41,500,000 cases, a 12 per cent increase over 1936.

California's orchard gold, moreover, needs no great army of Forty-niners to enjoy its riches here. Twentieth century trade channels, centralized marketing throughout thousands of unified retail outlets, make certain that the gold rush still goes on, but with what a difference! Today's modern marketing methods bear the gold of field and orchard to every corner of the nation. Today's gold seekers can be stay at homes if they like.

And California, a great producer, can match their demand!

"A British-American reciprocal trade treaty is finally on the way, and the consequences may be of the highest importance to all the world. For the treaty is intended not only to foster trade, but to avert war. In any case, the United States can congratulate itself on having made a start toward enlarging its own trade and that of its two best customers, Great Britain and Canada."—Business Week.

CITRUS LEADS CALIFORNIA PRODUCE



Citrus fruit, oranges, lemons and grapefruit led in the field of California produce output for the year 1937. Fruit and nut crops had an estimated farm valuation of $205,255,000, field crops $185,308,000 and truck crops $90,656,000. Citrus fruit had a combined value of $85,271,000. WASHINGTON NEWS

FROM OUR CONGRESSMAN
JOHN J. McGRATH

Busy Session For Congress—Congressional committees are facing a busy session and have started to deal with a wide variety of subjects that include taxes, appropriations, investigations of ship subsidies, judicial fitness of nominees to the Supreme Court and wire tapping.

* * *

Ratification Amendment—Senator Connally of Texas spoke before the Senate Judiciary Committee on the Norris resolution for an amendment to the Constitution to change the method of ratifying constitutional amendments. The Texas Senator suggested that the projected constitutional amendments be submitted to popular vote at a special election. This differs from the Norris plan in that the latter would submit them at general elections.

* * *

Foreign Policy—Many are wondering whether the increased plans for Navy building is designed merely for defense of the nation or if they are excursions into foreign politics. As the House considered the half-billion dollar naval appropriation bill, which is the largest the United States has ever made in peace time history, demands are being raised for a definition of the state department's aims in regard to this project.

* * *

Low Cost Housing—The Labor Department, after a study of the government's slum clearance and low-rent housing projects, has arrived at the conclusion that the PWA has succeeded in its low-cost housing program in building dwelling units at a lower average cost than that attained by private industry for comparable construction in some localities.

* * *

Federal Education Plan—To bring about active co-operation between educators and broadcasters, the Federal Communications Commission, two years ago, created a Federal Radio Education Committee. An Educational Script Exchange has been set up by the committee which has distributed, so far, to institutions and individuals 90,000 copies of the 110 radio scripts now available, as well as 12,000 radio manuals and glossaries that aids production. Any groups or individuals desiring scripts for production purposes should address the Educational Script Exchange, Office of Education, Department of the Interior, Washington, D. C., or write to my office.

Scientific Farming—By writing to my office and asking for a list of publications on agricultural research any farmer interested in scientific development of his property can keep advised of what is done by federal and state researches.

Cattle Prices—The cattle market now shows signs of some stability following the sharp decline in prices of the better grade cattle in November and December. A large part of the downward readjustment in prices was expected for the better grades of cattle in the first half of 1938 already seems to have taken place. Not much change is expected in prices of slaughter cows and the lower grades of steers. The influence of reduced supplies on prices of such cattle may be offset by a weakness in the consumer demand for meats.

* * *

Fertile Hens Eggs Identified—Fertile and infertile hens eggs can be identified with a high degree of accuracy after the eggs have been incubated from 14 to 20 hours. The method of determining fertile and infertile eggs is relatively simple and may be done by the average hatcheryman after a few hours practice. All the equipment needed is an ordinary egg candler with a 75-watt bulb. The embryos that can be seen at these ages contain no blood, cover an area on the yolk about the size of a dime and appear before the candler as a small spot. This effect is caused by a slight bulge of the embrya on the surface of the yolk. Such eggs are known as "heated eggs" in commercial candling. In the infertile eggs no development can be seen.

Social Security Card Duplicates—Wage earners who have lost their Social Security account number cards may now obtain duplicates from field offices of the Social Security Board. Field offices are located in 323 key cities. Formerly duplicates of account number cards issued in connection with the federal old age insurance program could be obtained only from Washington.

Sodium Nitrate Uses Described in New Publication — Sodium nitrate should be applied early in the spring to crops that need a prompt early start, according to Circular No. 436 "Production and Agricultural Use of Sodium Nitrate," recently issued by the U. S. Department of Agriculture. Crops that are to be eaten raw or used as salads, such aslettuce, early cabbage, spinach, kale and early tomatoes, are benefited by early applications of sodium nitrate, as it induces rapid growth, which insures succulence. Copies of this publication may be obtained by writing to my office.

Relief—General relief in the 107 urban areas from which reports were received for November, 1937, showed an upward trend from the preceding month in the number of cases and in the amount of obligations incurred for relief extended to cases. General relief includes all public relief extended to cases by state and local public agencies except the three special forms of assistance—old age assistance, aid to dependent children and aid to the blind—in which the Social Security Board participates, other public assistance of these types and aid to veterans under state and local statutes.

TROOP NO. 141 and CUB PACK NO. 141

Meets Thursdays 7 to 9 p. m. at Nazarene Church, Vista and Santa Barbara

(Scout Angelo Ditty, Troop Rep.)

Our troop has secured an empty store building on Mission street, near Milo's Market, in which to put on a Scout Week demonstration. The large cutout of a Boy Scout standing at salute is being painted by the R-C-O Art Studio as a good turn to our troop. It will be eight feet tall and will call attention to our exhibit.

The club formed by the mothers of Cubs and Scouts is progressing nicely. At their first weekly meeting ten ladies were present and worked on needlework articles. We understand that the club is not limited to mothers of Cubs and Scouts, but is open to any ladies who wish to help in the work. The club members are planning to make a large number of articles before the Festival of Youth to sell at that time. The meeting was at the home of Mrs. A. Laston, 112 Santa Barbara avenue.

The Cub tumbling act is coming along fine. Several of the boys are getting onto the rolls already. Jimmy Nielsen, mascot of Den 5, is doing his best to make the position of peak man on the team.

Two boys, Jackie Coons and Herbie Derungs, have made application to join the Cub Pack and will be taken in at the next meeting, which will take place on February 10 at the same time as the Father and Son banquet. Wallace Nielsen and Henry Herting are working hard on their test and expect to be invested with the rank of Lion Cub at the next meeting.

The cubs who earned the swimming lessons at the Crystal plunge made their first trip last Thursday evening. Cub Dads John Mosman and Mr. Petersen provided transportation and, incidentally, got all wet along with the rest of us. We had a swell time.

The Scouts took their swimming lessons on Monday evening. Mr. John Young, scoutmaster, provided transportation.

The meeting of Girl Scouts, Boy Scout and Cub mothers that took place last Thursday evening was well attended and considerable work was accomplished in the way of planning and assigning booths to the various ladies. Mr. Straughan dropped in and showed some of our movies of Scout and Cub activities. Mrs. L. Lemon, 261 Los Olivos, was hostess to the mothers on this occassion.

Mrs. H. Christiansen, 37 Vendome street, was hostess to the Scout and Cub Mothers this week on Monday afternoon. Several finished needlework articles were exhibited. The rain and wind storm kept some away but we understand that they just worked at home on their articles.

Our second annual Father and Son banquet will take place Thursday, February 10, in the church hall. Scouts and Cubs are having it as a joint affair. Mothers will serve the banquet.

Medieval Sport Is Revived At Catalina

Boar-baiting, ancient sport enjoyed by medieval knights, was recently revived on Santa Catalina Island, Cal., but modern equipment takes the place of antiquated weapons. In olden days a string of hounds was employed in conjunction with the huntsman's skill with the bow and arrow. Dr. Robert Kennedy of Hollywood dispensed with the dogs and long-bow, substituting an everyday rifle. Photo shows Kennedy with his prize, a young boar, with which he expects to grace his oven. Note how the wild variety of porcine animals have a growth of bristly hair and an unusually long snout.

OBSERVATION OF VARIOUS THINGS IN OUR CAPITAL

Many Interesting And Peculiar Forms Of Patents Are Granted By The Bureau Each Week

(By Hart Goodrich)

Your correspondent doesn't need to look very long before finding some choice bits of news from the files of the patent office here in Washington.

Here are a few highlights:

A. Mr. Boyle of San Francisco has been granted a patent for a device to save girls legs from being pinched. It appears that suspension of a garter from a corset girdle is quite an awkward arrangement, but it is the best the ladies have been able to devise to hold up their stockings. The metal parts, Mr. Boyle claims, are "a source of pressure, annoyance and inconvenience when a woman is in a sitting position. Also, a slight turn in a chair or like support will cause a pinching action of flesh with consequent distress to the individual wearer. I propose to interpose between the metal parts of the hose supporter and the flesh of the leg an improved cushioning element."

John William Leo Webster of Liverpool, England, received a patent for an improved harness for golf players—not that many of them shouldn't be harnessed. This consists of a belt around the waist with a "rein" attached between it and the neck of the club. When the player takes the proper stance the rein directs the club head downward and prevents topping, slicing, etc.

Among the patents issued to Washingtonians was one to John M. Mason for an improved starting gate for race tracks. Those now in use, the application states, are rather bunglesome to get off the track before the horses have made the first lap.

A practical development predicted for the next two decades is the combined airplane and automobile which will be able to land, fold up its wings, and proceed along the city streets like any other motor vehicle. One of this week's patents was to Edward Wagner of Philadelphia, who has invented a device of this sort with an original arrangement for wing folding.

Two new roses were patented by the estate of the late Luther Burbank. One is a white climber bearing blossoms like those of tea roses on long, strong stems and with an old rose fragrance.

Do you enjoy spaghetti? Some time ago a patent was issued for a spaghetti fork. This ingeniuos device included a small crank on the handle which allowed the hungry spaghetti eater to wind these long, slippery food strips on the fork.

Seriously, however, it is interesting to note that the patent office more than pays for itself. This is one of the few bureaus in the government that has, at least in actual monetary returns made good.

Pageant Depicts Scenes Of Days In Egypt When Pyramids Were Built

The glittering panoply and magnificence of ancient Egypt together with the other extreme of slavery, cruelty and the vicissitudes of every day life of those citizens of mysterious antiquity form a never to be forgotten pageant on the stage of the Alcazar Theater this week. They are all a part of the play, "The Sun And I," by Barrie and Leona Stavis that opened to a capacity audience Wednesday night,

"The Sun And I" is, as reported, the biggest and most pretentious production ever attempted outside New York City by the Federal Theater and it has just claims as being one of the finest from every aspect. The scenic settings are superb, the costumes brilliantly beautiful, the tempo in perfect step with the theme and the acting more than adequate: the whole, an artistic triumph for the government theater.

"The Sun And I" draws an easily recognizable parallel between the problems of that mysterious age when the pyramids were built and those of practically every country in the world today. Good and bad government, famine and drought, water and food conservation, love, hate and intrigue are but a few of the ingredients that make for interest throughout this spectacular staging. Dictators, it seems, were not uncommon even in that far off day. "The Sun And I" pictures Joseph—of the coat of many colors—as a dictator who reckoned without the alignment of the priests of the temple, the soldiery and the people themselves, and who brought disaster on himself.

Will Vedder, Leon Forbes, Vera Rothery, Sylvia Karoll and Ralph Freud, who directed the play, are outstanding.

Fire Siren Started By Short Circuit

During the storm Monday morning of this week the fire siren started to blow at about 3:30. The siren kept blowing until Fire Chief A. P. Chesney and Assistant Chief A. J. Bodien found a short in the wire at the Citrus avenue pumping station.

Mr. Bodien stayed on duty until 6 o'clock, after the break had been repaired, on the alert for more trouble.

Amid the wild fury of the wind, rain and the electric storm, aided by the fact that lights were out in that section of the city, the moaning of the siren kept many anxious persons awake in fear of a disastrous fire.

Cowboys Entitled To Square Deal

The labor organization movement has extended even into the open stretches of the eastern Oregon and Washington cattle country.

In the wake of the 1937 Pendleton Roundup came the announcement that ranch and range hands of the Pacific Northwest have organized a professional organization known as the Northwestern Cowboys Association. Organization of the group was perfected after the "Turtles," professional association of rodeo performers, had refused to compete in the Pendleton Roundup, annual frontier exhibition. Tony Vey, eastern Oregon cattleman, is president of the organization.

"This is a professional organization of ranch and range boys," Mr. Vey said, "and we hope to have members throughout all the Northwest states. Our purpose is square and fair dealing with rodeo managements."

RED CROSS ASKS AID FOR CHINA

Since President Roosevelt issued his call to the American public to rush a $1,000,000 relief fund through the American Red Cross, to millions of civilians in China who are in distress as the result of hostilities, Nelson T. Johnson, United States Ambassador, now at Hankow, reports that over 20,000,000 people are affected in the Shanghai, Hangchow and Nanking areas alone. He also says:

"The hostilities are driving huge numbers of Chinese from their homes, in cities and villages and on farms. Fleeing from danger, many of those people become refugees and are in need of shelter, food, clothing and medical aid. Transportation facilities as far inland as Szechwan are choked by this mass movement of terrified people. Unharvested crops have been left to rot; new crops will not be planted in the deserted fields this spring. The plight of this people will be piteous in the months to come."

Thousands of homeless are being forced to huddle under straw matting shelters, lacking protection from snow and rain. Alleys and doorways in scores of towns and villages are crowded with bewildered people, bordering on starvation.

President Roosevelt in his appeal to the public urges a prompt and generous response.

GRAMMAR SCHOOL NEWS OF INTEREST

Art Problems Put To Practical Use

Mrs. Corral, art supervisor, is employing every available means in co-operating with classroom teachers in their efforts to instill citizenship and protection of property to students in the Woodrow Wilson elementary grades. During the art periods, the students decorated the oilcloth, cloth and paper covers of the state text books loaned to them by the schools. Each day art problems were carried over to a very practical use. The book covers were quite interesting with their modern designs, outstanding lettering, clever cartoons and pictures illustrating the contents of the individual books. "Better care of state text and school property" seems to be the theme for the spring semester at Woodrow Wilson Elementary School.

News Notes From Jefferson School

The seventh grade pupils have just completed a Bird Unit in their Nature Study. The children made bird houses of various sizes and plan to erect them later in different parts of the community. Their reading and language covered stories of birds, both useful and destructive types.

The sixth grade has completed a study of honey bees. The students learned how bees assist man in the pollination of flowers and fruit as well as producing honey for food.

On Friday afternoon the sixth and seventh grades, under guidance of Mrs. Leonetti and Miss Campana, made a visit to the San Francisco airport. The children are studying transportation and were eager to add more to their knowledge of the subject. They witnessed the arrival and departure of several planes and gained much new information from personal observation.

The Jefferson Service Club started the new term by an election of officers. The new officers are Barbara Wilmuth, president; James Mateucci, vice president; Gloria Fontana, treasurer; Dorothy Rouell, secretary. The first meeting was devoted to organization procedure, outlining plans for the term and appointing committees.

Elect Student Body And Class Officers

The Woodrow Wilson high eighth grade of room 4 held a meeting to elect new class and school officers. The following officers were chosen: President, Florence Bautista; vice president, Donald Laston; secretary treasurer, Albert Pastorino; class representative, Robert Dyer. This group of officers, reports the class representative, "hopes to accomplish many worthwhile activities in the coming term."

These officers automatically become officers of the student body of the school and are engaged at the present time in writing a constitution for the school, which will be accepted after a vote. The writing of this document is a life situation, as this group is studying local, state and national constitutions and by-laws in their social science unit.

"ELEPHANT BOY" DUE HERE SUNDAY

"Elephant Boy," Alexander Korda's film version of Rudyard Kipling's "Toomai of the Elephants," comes to the Daly City Theater for two days the coming Sunday next.

Filmed in the course of a two year expedition into the heart of the Indian jungles, headed by Robert Flaherty, famous explorer director who gave us the memorable "Nanook of the North," "Moana," "Tabu" and "Man of Aran," and his co-director, Zoltan Korda, "Elephant Boy" is described as one of the most thrilling natural background pictures ever to reach the screen.

The picture introduces a new type of screen team in Sabu, the handsome 12 year old native Indian boy who plays the title role, and Iravatha, who is said to be the world's largest elephant.

"Elephant Boy" is the story of little Toomai, a boy mahout, and his enormous elephant, Kala Nag.

Ambitious to become a great elephant hunter like his famous grandfather, the child is permitted to accompany his father into the jungle on an elephant hunt and the story depicts in thrilling terms how he, with the aid of Kala Nag, discovers and helps capture a herd of 80 wild elephants.

This breathtaking "keddah" forms one of the most thrilling climaxes the screen has ever shown and was filmed at great risk.

The supporting cast includes Walter Hudd, W. E. Holloway, Allan Jeayes, Bruce Gordon, D. J. Williams and Hyde White.
